

# International Student Photo Contest, 2016: Cities/Urbanization

Carnegie Council for Ethics in International Affairs announces its fourth annual International Student Photography Contest.

**The topic for this year's photo contest is Urbanization.** According to a 2014 [UN report](#), the world's urban population is five times as large as it was in 1950. While it might mean a path out of poverty and easier access to education for many, it can also increase income inequality and contribute to climate change. **Please submit photos that depict urbanization and city life, showing either the advantages or the drawbacks.**

The contest will be conducted on Carnegie Council's [Global Ethics Network](#), our social media platform for exploring the role of ethics in international relations.

**ELIGIBILITY:** All students of every nationality are eligible. Non-students will be disqualified. The minimum age is 13.

**CONTEST DEADLINE:** December 31, 2016

## PRIZES:

**1st prize:** \$200 Amazon Gift Certificate
